

# Back Cover – Sending Flowers to America

HISTORY/FLORICULTURE/HORTICULTURE

*Sending Flowers to America* is a heart-warming tribute to all who played a role in the birth of the American floral industry. Accolades to all!

– **Ann Quinn**

*Executive Vice President, California State Floral Association*

A delightful collection . . . A must read for everyone in the California floral industry.

– **Michael Reid**

*Professor & Extension Specialist, Department of Plant Sciences, University of California, Davis*

The authors did a tremendous job of bringing into focus one facet of the tapestry of California's horticultural history by following the threads that people have woven over time . . . By telling the stories of the people whose lives shaped the business of cut flowers you feel as though they are family friends. Not a bad way to view history, real people, real stories.

– **Marie Barnidge-McIntyre**

*Horticulturist, Rancho Los Cerritos*
